

UEE Enterprise Specification v14.0 - Universal Adaptive Civilization Operating System (UACOS)

UEE ENTERPRISE SPECIFICATION v14.0

1. VISION

Evolve AECS into a Universal Adaptive Civilization Operating System (UACOS) that coordinates knowledge, intelligence, governance, sustainability, innovation, and flourishing across enterprises, industries, societies, ecosystems, and civilizations.

2. UNIVERSAL EVOLUTION MODEL

Observe → Understand → Learn → Reason → Coordinate → Govern → Adapt → Regenerate → Flourish → Evolve

3. UNIVERSAL KNOWLEDGE ONTOLOGY

Domains:

- Knowledge
- Science
- Technology
- Economy
- Society
- Governance
- Sustainability
- Civilization

4. CROSS-CIVILIZATION KNOWLEDGE GRAPH

Connect:

- Enterprises
- Industries
- Nations
- Institutions
- Ecosystems
- Civilizations

5. CIVILIZATION MEMORY ARCHITECTURE

Layers:

- Historical Memory
- Institutional Memory
- Scientific Memory
- Cultural Memory
- Collective Memory

6. PLANETARY DIGITAL TWIN

Models:

- Economy
- Environment
- Infrastructure
- Energy
- Population
- Knowledge Networks

7. CIVILIZATION FORESIGHT ENGINE

Scenarios:

- 10 Years
- 25 Years
- 50 Years
- 100 Years
- 500 Years

8. UNIVERSAL GOVERNANCE FRAMEWORK

Governance Domains:

- Enterprise
- Industry
- National
- Global
- Ecological

9. HUMAN-AI-INSTITUTION-ECOSYSTEM SYMBIOSIS

Humans: Purpose, Ethics, Creativity

AI: Intelligence, Simulation, Optimization

Institutions: Governance, Stewardship

Ecosystems: Sustainability, Regeneration

10. UNIVERSAL FLOURISHING MODEL

Measure:

- Human Wellbeing
- Knowledge Growth
- Economic Prosperity
- Social Trust
- Ecological Health
- Innovation Capacity

11. REGENERATIVE CIVILIZATION ARCHITECTURE

Principles:

- Sustainability

- Circularity
- Resilience
- Adaptability
- Stewardship

12. CIVILIZATION RESILIENCE ENGINE

Evaluate:

- Environmental Risks
- Economic Risks
- Technology Risks
- Governance Risks
- Social Risks

13. PLANETARY VALUE NETWORK

Flows:

- Knowledge
- Energy
- Capital
- Innovation
- Trust
- Resources

14. COLLECTIVE INTELLIGENCE NETWORK

Participants:

- People
- Organizations
- AI Agents
- Governments
- Research Institutions

15. UNIVERSAL EVOLUTION INDEX

Measures:

- Adaptation
- Learning
- Resilience
- Sustainability
- Prosperity
- Flourishing

16. TARGET STATE

A continuously learning, adaptive, regenerative civilization-scale system capable of balancing prosperity, sustainability, resilience, and flourishing.

17. NORTH STAR

Enable humanity, institutions, and intelligent systems to evolve together toward resilient, regenerative, and flourishing futures.
