

UEE Enterprise Specification v4.0 - Platform Build Specification

UEE ENTERPRISE SPECIFICATION v4.0

PURPOSE

Transform the UEE architecture blueprint into an implementation-ready platform specification.

1. PLATFORM VISION

AI-native Enterprise Operating System for Strategy-to-Value orchestration.

2. PRODUCT SUITE

- Executive Copilot
- Strategy Workspace
- Portfolio Command Center
- Architecture Repository
- Knowledge Graph Explorer
- Traceability Explorer
- Agent Studio
- Learning Academy
- Governance Hub
- Value Realization Dashboard

3. NEXT.JS APPLICATION ARCHITECTURE

Frontend:

- Next.js 15
- React 19
- TypeScript
- TailwindCSS
- Shadcn/UI

Pages:

- Dashboard
- Strategy
- Portfolio
- Architecture
- Products
- Data
- Governance
- Agents
- Academy
- Admin

4. UX DESIGN SYSTEM

Components:

- Executive Cards
- KPI Dashboards
- Graph Explorers
- Agent Chat Panels
- Portfolio Heatmaps
- Traceability Views

5. AGENT RUNTIME

LLM:

- Anthropic Claude

Framework:

- LangGraph

Agent Types:

- Executive
- Strategy
- Product
- Architecture
- Data
- Security
- Governance
- Learning
- Evolution

6. KNOWLEDGE GRAPH SCHEMA

Nodes:

Strategy

Objective

Capability

ValueStream

Product

Application

API

DataProduct

Technology

Risk

Control

Metric

7. DATA PLATFORM

PostgreSQL

Neo4j

pgvector

Object Storage

8. API PLATFORM

REST

GraphQL

Event APIs

Domains:

Strategy

Portfolio

Architecture

Knowledge

Agent

Governance

9. EVENT CATALOG

StrategyCreated

ObjectiveUpdated

CapabilityChanged

ProductReleased

RiskDetected

MetricUpdated

10. SECURITY ARCHITECTURE

Zero Trust

RBAC

ABAC

Encryption

Audit Logging

Secrets Management

11. OBSERVABILITY

Metrics

Logs

Traces

Business KPIs

Agent KPIs

12. DEPLOYMENT ARCHITECTURE

Vercel

Kubernetes

AWS/Azure/GCP

13. PRODUCT BACKLOG

Epic 1 Executive Copilot

Epic 2 Knowledge Graph

Epic 3 Traceability Explorer

Epic 4 Agent Studio

Epic 5 Learning Academy

14. IMPLEMENTATION WAVES

Wave 1 Foundation

Wave 2 MVP

Wave 3 Pilot

Wave 4 Scale

Wave 5 Enterprise Rollout

15. COST MODEL

Infrastructure

AI Usage

Licensing

Engineering

Operations

16. KPI FRAMEWORK

Strategic Alignment

Value Realization

Knowledge Reuse

AI Adoption

Architecture Compliance

17. TARGET STATE

Autonomous enterprise evolution through continuous learning and AI-assisted decision intelligence.
