

# UEE Enterprise Specification v5.0 - Engineering & Delivery Blueprint

UEE ENTERPRISE SPECIFICATION v5.0

## 1. ENGINEERING VISION

Build a production-grade AI-native Enterprise Operating System capable of continuous evolution.

## 2. MONOREPO STRUCTURE

/apps

/web (Next.js)

/api

/agents

/packages

/ui

/ontology

/workflows

/knowledge-graph

/infrastructure

/docs

## 3. NEXT.JS ARCHITECTURE

Routes:

/dashboard

/strategy

/portfolio

/architecture

/products

/data

/governance

/agents

/academy

/admin

## 4. REACT COMPONENT CATALOG

ExecutiveDashboard

KPIWidget

AgentChat

KnowledgeGraphViewer

TraceabilityExplorer

PortfolioHeatmap

CapabilityMap

ValueDashboard

## 5. AGENT PLATFORM

Executive Agent

Strategy Agent

Portfolio Agent

Product Agent

Architecture Agent

Data Agent

Security Agent

Governance Agent

Learning Agent

Evolution Agent

## 6. LANGGRAPH WORKFLOWS

Executive Query Flow

Strategy Analysis Flow

Architecture Assessment Flow

Portfolio Optimization Flow

Value Realization Flow

## 7. ANTHROPIC INTEGRATION

Model Gateway

Prompt Library

Agent Contracts

Guardrails

Evaluation Framework

## 8. DATA ARCHITECTURE

PostgreSQL

Neo4j

pgvector

Object Storage

## 9. ENTERPRISE ONTOLOGY

Strategy

Objective

Capability

Value Stream

Product

Application

API

Data Product

Technology

Risk

Control

Metric

Agent

## 10. API SPECIFICATION

REST

GraphQL

Event APIs

OpenAPI Contracts

## 11. EVENT ARCHITECTURE

StrategyCreated

CapabilityUpdated

ProductReleased

RiskDetected

MetricChanged

## 12. SECURITY ARCHITECTURE

Zero Trust

RBAC

ABAC

Encryption

Secrets Management

NIST Controls

## 13. OBSERVABILITY

Metrics

Logs

Traces

Agent Telemetry

Business KPIs

## 14. DEVSECOPS

GitHub Actions

Terraform

Kubernetes

Policy as Code

Security Scanning

## 15. INFRASTRUCTURE AS CODE

Terraform Modules

Cloud Landing Zones

Kubernetes Clusters

Monitoring Stack

## 16. PRODUCT BACKLOG

Epics

Features

User Stories

Acceptance Criteria

## 17. DELIVERY MODEL

Quarterly Roadmaps

Program Increments

Sprint Planning

Continuous Delivery

## 18. KPI FRAMEWORK

Strategic Alignment

Value Realization

AI Adoption

Knowledge Reuse

Architecture Compliance

## 19. IMPLEMENTATION PLAN

Phase 1 Foundation

Phase 2 MVP

Phase 3 Pilot

Phase 4 Scale

Phase 5 Enterprise Rollout

Phase 6 Autonomous Evolution

## 20. TARGET STATE

A self-improving enterprise platform with autonomous intelligence, traceability, governance, and measurable business value.
