

UEE Enterprise Specification v9.0 - Cognitive Enterprise Platform

UEE ENTERPRISE SPECIFICATION v9.0

1. VISION

Evolve AEOS into a Cognitive Enterprise Platform capable of reasoning, learning, simulating futures, optimizing decisions, and continuously improving enterprise outcomes.

2. COGNITIVE ENTERPRISE MODEL

Sense → Understand → Reason → Predict → Decide → Execute → Learn → Adapt → Evolve

3. ENTERPRISE REASONING ENGINE

- Strategic Reasoning
- Architectural Reasoning
- Product Reasoning
- Financial Reasoning
- Risk Reasoning
- Governance Reasoning

4. ENTERPRISE MEMORY ARCHITECTURE

- Episodic Memory
- Semantic Memory
- Procedural Memory
- Organizational Memory
- Agent Memory

5. COGNITIVE KNOWLEDGE GRAPH

- Causal Graphs
- Dependency Graphs
- Influence Networks
- Value Networks
- Decision Networks

6. ENTERPRISE ONTOLOGY V2

500–1000+ entities covering:

Strategy, Business, Products, Architecture,
Technology, Data, AI, Finance, Risk, Compliance,
Learning, Workforce, Customers, Ecosystems.

7. COGNITIVE DIGITAL TWIN NETWORK

- Executive Twin
- Workforce Twin
- Enterprise Twin

- Portfolio Twin
- Product Twin
- Technology Twin
- Customer Twin

8. DECISION INTELLIGENCE PLATFORM

Capabilities:

- Decision Modeling
- Scenario Planning
- Trade-off Analysis
- Recommendation Engine
- Decision Traceability

9. STRATEGIC FORESIGHT ENGINE

- Trend Analysis
- Scenario Generation
- Opportunity Detection
- Risk Forecasting
- Long-Term Planning

10. PORTFOLIO OPTIMIZATION ENGINE

- Investment Optimization
- Resource Allocation
- Capability Prioritization
- Value Maximization

11. KNOWLEDGE GENOME

Maps the DNA of:

- Enterprise Knowledge
- Capabilities
- Products
- Processes
- Technologies

12. CAPABILITY GENOME

Identifies:

- Capability Evolution Paths
- Capability Dependencies
- Capability Maturity

13. MULTI-AGENT NEGOTIATION PROTOCOL

Agents:

- Strategy
- Product

- Architecture
- Finance
- Risk
- Governance

Functions:

- Debate
- Consensus
- Escalation
- Resolution

14. ENTERPRISE MISSION CONTROL

Unified Command Center:

- Strategy
- Operations
- Architecture
- Portfolio
- Risk
- Value

15. ANTHROPIC + LANGGRAPH FABRIC

Claude Models

Planning Graphs

Reasoning Graphs

Reflection Graphs

Consensus Graphs

Learning Graphs

16. ENTERPRISE EVOLUTION INDEX

Measures:

- Adaptability
- Learning Velocity
- Innovation Rate
- Decision Quality
- Value Realization

17. HUMAN + AI COGNITIVE MODEL

Humans provide intent, judgment, and governance.

AI provides analysis, reasoning, simulation, and recommendations.

18. ROADMAP

Year 1 Cognitive Foundation

Year 2 Enterprise Reasoning

Year 3 Decision Intelligence

Year 4 Predictive Enterprise

Year 5 Cognitive Enterprise

19. TARGET STATE

A continuously reasoning, learning, and optimizing enterprise capable of adaptive decision-making at scale.

20. NORTH STAR

Transform enterprise knowledge into enterprise intelligence, and enterprise intelligence into enterprise evolution.
