

UEEOS Master Specification v2.0 - Universal Evolution Engine Ecosystem

UEEOS MASTER SPECIFICATION v2.0

VISION

A universal ecosystem for understanding, simulating, governing, improving, and evolving any biological, ecological, social, economic, technological, enterprise, or civilization system.

1. UNIVERSAL REALITY MODEL

Physical Systems

Biological Systems

Ecological Systems

Human Systems

Digital Systems

Economic Systems

Civilization Systems

2. EVOLUTION STACK

Reality → Observation → Knowledge → Intelligence → Wisdom → Purpose → Action → Learning → Adaptation → Evolution → Regeneration

3. SCIENTIFIC DISCOVERY ENGINE

Hypothesis Generation

Experiment Design

Evidence Analysis

Theory Creation

Knowledge Validation

4. BIOLOGICAL EVOLUTION ENGINE

Genetics

Breeding

Population Dynamics

Adaptation

Species Evolution

5. ECOLOGICAL INTELLIGENCE ENGINE

Biodiversity

Water Systems

Climate Systems

Soil Systems

Carbon Systems

6. REGENERATIVE SYSTEMS ENGINE

Circular Economy

Carbon Sequestration

Resource Recovery

Ecosystem Restoration

Sustainable Development

7. UNIVERSAL KNOWLEDGE FABRIC

Ontology Engine

Knowledge Graph

Semantic Layer

Vector Memory

Digital Thread

8. UNIVERSAL DIGITAL TWIN FABRIC

Human Twin

Farm Twin

Enterprise Twin

Industry Twin

Nation Twin

Civilization Twin

Planetary Twin

9. UNIVERSAL AGENT SOCIETY

Executive Agents

Scientific Agents

Agriculture Agents

Enterprise Agents

Governance Agents

Simulation Agents

Evolution Agents

Meta Agents

10. UNIVERSAL SIMULATION LAB

Enterprise Futures

Industry Futures

Economic Futures

Climate Futures

Civilization Futures

11. COLLECTIVE INTELLIGENCE NETWORK

Humans

AI Agents

Organizations

Institutions

Research Networks

12. KNOWLEDGE TO ACTION ENGINE

Observe

Reason

Recommend

Execute

Measure

Learn

13. GOVERNANCE & STEWARDSHIP

Policy

Risk

Ethics

Compliance

Sustainability

14. UNIVERSAL MATURITY MODEL

L1 Reactive

L2 Managed

L3 Connected

L4 Intelligent

L5 Autonomous

L6 Evolutionary

L7 Regenerative

L8 Meta-Evolutionary

15. NORTH STAR

Enable every system to continuously learn, adapt, regenerate, and evolve toward greater resilience, sustainability, intelligence, and flourishing.
